- Commercialization and Applications
- Investment Opportunities and Challenges
- Education and Workforce Training

Venue: Corporate Headquarters of the International Association of Nanotechnology: 1290 Parkmoor Avenue, San Jose, CA 95126

Registration online: <http://nanotechcongress.com/registration.htm>

For further information, please contact Event Coordinator at:
info@cleantechinstitute.org or **408-280-6242**

Clean Tech Institute provides expert management consulting services on strategic planning, corporate development, business positioning, and capital funding assistance in the emerging clean tech industry. In partnership with the International Association of Nanotechnology, the Institute provides workforce training as well as facilitating the deployment and use of clean tech solutions by business, government, universities and other institutions.

Our areas of expertise:

Corporate environmental strategy
Business re-engineering and acceleration
Research and product development planning
Product and marketing positioning
Workforce education and training
Facilitating and managing the Clean Consortium
